# PREMIUM PLANT-POWERED BATHROOM CLEANER

*Natural Lemon Triple Action*

**For Ceramic » Porcelain » Steel » Chrome**

## SALIENT FEATURES

- Plant-powered formula with natural **lemon essential oil** and eco-friendly biodegradable surfactants derived from natural sources.
- **QUAD action synergy:** four plant-derived ingredients attack dirt, grime, limescale, soap scum and bacteria from all angles at once.
- Removes **hard-water limescale and soap scum** within seconds.
- Leaves a **brilliant, streak-free shine** on ceramic, steel and chrome.
- Three of the four ingredients have **zero vapour pressure**, meaning no VOCs. Only the natural lemon oil evaporates, within CARB limits.
- Formulated **without chlorine or harsh chemicals:** cleans thoroughly without suffocating fumes.
- Ready to use, with a refreshing lemon fragrance that deodorizes.

## ADVANTAGES / BENEFITS

**Cleans, shines and freshens:**

- Bathroom tiles, toilet bowls and washbasins.
- Steel / chrome taps and fittings.
- Glass (mix 100 ml cleaner with 500 ml water).
- Does not add to indoor air pollution; helps bring VOC levels down.
- Restores a **deeply hygienic environment** and a high-quality, like-new finish.
- Gentler on housekeeping staff and guests: no harsh, suffocating fumes.
- Biodegradable surfactants for a lighter footprint on the ecosystem.
- Refreshes and deodorizes with natural lemon.

## CONTENTS

Natural **lemon essential oil**, a **mild organic acid** and eco-friendly **biodegradable surfactants** derived from natural sources.

Making it a safe, plant-powered choice for everyday use.

**Pack:** 500 ml | **Best before:** 9 months from mfg. date

Store in a cool, dry place away from direct sunlight.

## DIRECTIONS FOR USE

Spray directly onto tiles, porcelain, sinks, toilet bowls and stainless steel / chrome fittings.

**Step I** – Wipe with a clean microfiber cloth.
**Step II** – Buff dry with a dry microfiber cloth for a streak-free shine.
**Step III** – Rinse the surface with normal water.

**Caution:** Do not use on copper, brass or aluminium surfaces.

*Scientifically engineered for modern HVAC-designed non-residential buildings, green-certified corporate offices and premium star hotels.*

# WHY SWITCH TO PLANT POWERED?

*What other bathroom / toilet cleaners commonly contain*

| Ingredient | Human health concern | Ecosystem concern |
|---|---|---|
| **1. Mineral acids** (e.g. hydrochloric, phosphoric acid) *heavy-duty descaler for toilet bowls* | Classified as acutely corrosive substances. | Pose a danger to the ecosystem. |
| **2. Sodium hypochlorite** (chlorine bleach) *used for killing bacteria* | Causes skin burns and eye irritation; releases volatile chlorine compounds that are powerful respiratory irritants. | When discharged into waterways, by-products are persistent, bioaccumulative and highly toxic to aquatic life. |
| **3. Benzalkonium chloride** (quaternary ammonium compounds, "Quats") *synthetic disinfectant* | Known dermal sensitizer and respiratory irritant. | Exceptionally toxic to aquatic organisms, even at microscopic concentrations. |
| **4. Petroleum solvents** *used as de-greasers* | Release high levels of VOCs. Short-term inhalation can trigger dizziness and headaches; long-term exposure to certain distillates or glycol ethers can damage the central nervous system, liver and kidney. Several compounds are known carcinogens. | Generate ground-level ozone and photochemical smog, degrading outdoor air quality. |
| **5. Ammonia compounds** (ammonium hydroxide) *used in glass and polished-surface cleaners* | Produces a highly irritating, pungent vapour that irritates the eyes, nose and throat. | Depletes dissolved oxygen levels in water. |

## ZERO-VOC (VOLATILE ORGANIC COMPOUNDS) THINKING

Out of four ingredients, three have **zero vapour pressure**, so they release no VOCs. The only one that evaporates is natural lemon oil, which gives the refreshing fragrance and stays within the prescribed limits of **CARB** (California Air Resources Board).

## QUAD ACTION SYNERGY

Four distinct plant-derived ingredients work together in harmony to attack **dirt, grime, limescale, soap scum and bacteria** from all angles simultaneously: the power of synergistic chemistry.

## FINAL CONCLUSION

The ultimate bathroom cleaning **starts and ends** with Garden Pleasure Premium Plant Powered Bathroom Cleaner:

- Does not add to indoor air pollution; VOC levels come down.
- Removes hard-water limescale and soap scum within seconds, leaving a brilliant streak-free shine on ceramic, steel and chrome.
- Restores a deeply hygienic environment and a high-quality, like-new finish.
