

**PREMIUM ORANGE-OIL MULTIPURPOSE
CLEANER & SHINE-POLISH**

Experience the magical cleaning power of Orange Oil

For

(WOOD » Metal » Laminates » Ceramic)

SALIENT FEATURES

- Natural formulation that significantly reduces the chemical footprint inside premises.
- Cleans, shines and provides a polishing effect on almost every wooden, metallic, ceramic and laminated surface.
- Forms a microscopic polished layer that imparts anti-dust and water-resistant properties, thereby reducing the frequency of cleaning.
- Reduced cleaning frequency helps save time, money and effort.
- Leaves a pleasant and refreshing fragrance of oranges.
- Free from petroleum solvents, acids and highly volatile harmful chlorinated compounds.
- Does not deteriorate the porcelain coating of flushes and wash basins, unlike acid-based toilet cleaners.
- Overall cost-effective, owing to reduced cleaning frequency and the elimination of separate cleaners and polishes.
- Premium orange oil-based cleaning and shine technology that helps reduce dependence on petroleum solvent-based cleaners.

ADVANTAGES / BENEFITS

Cleans, shines and polishes the following:-

- Wooden furniture, doors, windows and almirahs.
- All metallic surfaces, modular kitchens, gas stoves, chimneys, appliances and fans.
- Automotive interiors and exteriors.
- Tiles, washbasins, taps and flush tanks.
- Polishing effect — conditions the surface and improves appearance.
- Emits a beautiful orange fragrance.
- Gloss effect and smoothness.
- Creates a protective layer.
- Smudge-free finish.
- Reduces the chemical footprint inside premises.
- Long-lasting effect.
- Reduces the frequency of cleaning, saving time, money and effort.

CONTENTS

It contains natural orange oil and biodegradable surfactants, making it safe for everyday use

DIRECTIONS FOR USE

Spray onto the surface or onto the microfiber cloth.

Step I – Wipe the surface with microfiber cloth.

Step II – Buff with clean dry microfiber cloth to reveal a rich natural shine.
